

It was decided during our online review meeting to lift some of the restrictions when fishing our waters. As from Tuesday 19th May we will return to normal allowing members to arrive and fish as we were before the lockdown in accordance with current bylaws.

Stay Alert, Stay Safe!

Don't forget that you should ensure that you stick to the 'Stay Alert' agenda and use sanitiser before and after you touch any gate or lock and that you rigidly adhere to the 2m social distancing rule unless you are with a family member who you reside with. Obviously if either you or the people you live with show any symptoms of covid-19 you should self-isolate in line with official guidance.
